

HTT 212
INTRODUCTION TO DIGITAL TOURISM

ASSIGNMENT 2 (20% + 10%)
Group Proposal & Pitch for a Digital Solution

Objective: To collaboratively propose and present a new or improved mobile application for one of the organisations analysed in Assignment 1, demonstrating creativity, feasibility, and practical application.

Instructions:

1. Group Formation: Form groups of 4–5 students – Each group must agree on a project focus
2. Select an Organisation: Choose one organisation from Assignment 1
3. Develop a Mobile App Proposal: Design a new mobile app or enhance an existing one. Examples include: customer engagement app, VR/AR tour guide, sustainability tracker, booking/payment app, AI chatbot-based concierge.
4. Deliverables:

A. Presentation (20%):

A live F2F presentation with slides. Sections should include (but not limited to) the following:

- Organisation background
- Problem or opportunity identified
- Proposed mobile app solution (features & benefits)
- Implementation challenges & strategies
- Conclusion

B. Video Demonstration (10%):

A 3–5 minute demo of your mobile app prototype, embedded in the presentation

- Prototype must show at least 3 working screens (e.g., login/start page, main feature screen, confirmation/feedback screen)
- Tools: Figma, Canva App Mock-up, Marvel, Adobe XD, Glide, Thunkable, or any equivalent
- Demo should highlight how the app functions in practice, not just static slides

Points to Note:

- Add visuals to make your slides engaging
- Students must be professionally dressed
- Ensure the app demo is clear and functional; narration must explain features
- Plagiarism will not be tolerated; cite any references (APA 7th)

Assessment Criteria: See Rubrics - This assignment is marked out of 100 and contributes 30% to the final course grade (20% presentation + 10% video demonstration, Pass = 50/100)

Submission: Week 12 (presentation slides with embedded video)

RUBRICS – ASSIGNMENT 2 (20% + 10%) Group Proposal & Pitch for a Digital Solution

Criteria	Weightage	Needs Improvement / Poor 0-1	Satisfactory 2-3	Good 4	Excellent 5	Marks
Group Presentation (20%)						
Content & Structure	4	Disorganised, missing sections	Some structure; parts under-developed	Mostly clear, minor gaps	Clear, logical flow; all required sections in depth	
Delivery & Teamwork	3	Limited/unclear	Uneven participation	Clear, some variation	Confident, engaging; equal participation	
Critical Analysis & Justification	2	Weak or none	Limited justification	Clear arguments with some evidence	Strong evidence, linked to trends	
Visual Quality (Slides/Design)	1	Poor or irrelevant visuals	Adequate visuals	Clear and neat	Highly engaging, professional visuals	
SUB-TOTAL (out of 50 marks)						
Mobile App Video Demonstration (10%)						
Functionality & Relevance	5	No app demo; only slides	Partial demo, limited relevance	Shows 2 screens, mostly relevant	Shows at least 3 functional screens; highly relevant	
Creativity & Innovation	3	No creativity/copied	Adequate but basic	Creative and relevant	Highly creative prototype with unique features	
Professional Quality	2	Poor or unclear	Adequate but basic quality	Clear with minor issues	Polished, clear, professional video	
SUB-TOTAL (out of 50 marks)						
GRAND TOTAL (100 marks)						

Note: This rubric is designed to assess the quality of the digital platform/application proposal and video presentation. Each criterion should be interpreted in the context of the assignment instructions and the student's performance. This assignment is marked out of 100 and contributes 30% to the final course grade (20% presentation + 10% video demonstration, Pass = 50/100).
